INSTRUCTIONS

INSTRUCTIONS

- The ecobag contains a special growing media and a bag with certified organic seeds.
- Use scissors to cut the bag open about 1 cm below the seal.
- Now open the seed bag, sprinkle the seeds on the soil, and cover slightly with soil.
- Place the bag on a small plate and water the ecobag carefully by pouring about 150 ml of lukewarm water into the bag.
- Place the bag in a warm and bright place and water regularly (about 50 ml of water every 4 to 5 days).
- After about 14 to 20 days the plant will start to germinate.
- After about 12 weeks plant grows large.
